1 PhD student position available at Spanish National Cardiovascular Research Center (CNIC), Madrid (Spain)

A PhD student position available for **Biologist, Chemist, Biochemist or student with equivalent degree** to develop his/her thesis within the **EU Initial Training Network FP7-PEOPLE-2013-ITN CardioNext**, a highly multidisciplinary, intersectoral and competitive training programme in cardiovascular research.

Project: Analysis of the deep redox proteome and the metabolome of the ischemic heart.

Requirements:

Applicants must have a Master Degree related to the Biomedicine field and a good academic record. Good English communication skills are mandatory. Lab experience will also be valued.

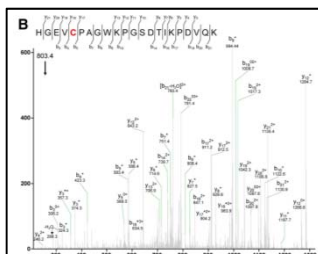

Elegibility:

Candidates must be in the first four years (full-time equivalent) of their research careers and have not yet been awarded a doctoral degree. In addition, must not have resided or carried out their main activity (work, studies) in Spain for more than 12 months in the 3 years immediately prior to the recruitment date.

Offered:

- a 3-year contract to undertake a PhD in biomedicine
- a competitive salary (33,000 - 37,000 € per annum)
- integration in a European network of scientific excellence
- stays in private companies and partner academic labs
- extensive training in complementary skills
- access to state-of-the-art infrastructures.

Starting date: October-December 2013.

The CNIC provides benefits packages and is an Equal Opportunity Employer. Send CV (including academic record) and a cover letter addressing your qualifications as they pertain to this position, and contact information of three referees to ibdreville@cnic.es before **July 31, 2013**. Please quote reference **CN5**.
